

Specifications & Properties

Flash Point: Not applicable
Physical State: Clear and colorless liquid
Flammable: NO

Description

This product is an environmentally friendly aqueous solution designed for use in re-circulatory solvent washers, high pressure cabinet washers and for manual cleaning applications. It is ideally suited for cleaning and degreasing soft metals, automotive components and machined parts. This product is water-based, non-foaming and nonflammable, yet cleans like a petroleum solvent without the environmental and safety disadvantages. The corrosion inhibitor package will prevent rust and corrosion to cleaned parts and cleaning equipment.

Features & Benefits

- Water-Based
- Non-Foaming
- Nonflammable

Applications

- Automotive
- Heavy Equipment

Directions

For heavy degreasing, use a 10% solution. For lighter degreasing, use a 2-5% solution depending on the condition of the parts being cleaned. Best results are achieved at 160-180°F (71-82°C). Remove excess grease prior to cleaning.

Packaging & Handling

Liquid Parts Wash is available in 20L, 205L containers. Product can be stored in high-density polyethylene, polypropylene or fiberglass containers.

Before use be sure to read and follow directions and precautions on product label and material safety data sheets (SDS).
