

THE MAD CHEMIST

FORMULA 333

DISINFECTANT & DISENFECTION & CLEANER

- FOR USE IN HOSPITALS AND FOOD PROCESSING AREAS
- BACTERICIDE
- FUNGICIDE
- VIRUCIDE
- MALODOUR COUNTERACTANT
- FULL RANGE CLEANING POWER ON ALL WASHABLE SURFACES

Formula 333 is an effective quaternary bactericide with excellent hard water tolerance. It is useful as a disinfectant, sanitizer and deodorizer.

Specifically formulated for hospitals, nursing homes, food processing plants, schools and other institutions where good housekeeping is of prime importance in controlling cross contamination.

Formula 333 deodorizes those areas which are generally hard to keep fresh smelling such as garbage storage, empty bins, toilet bowls and any other areas which are prone to odors caused by microorganisms.

FEATURES

- Superior microbial control in hard water
- Use concentration is essentially odorless and colourless
- Provides algae control in water systems
- Effective disinfection of hard surfaces
- Useful for both sanitizing and odor control
- Noncorrosive to most plastics, natural rubber and stainless steel
- Reduces surface tension of aqueous systems and acts as a wetting agent

DIRECTIONS

Disinfection: To disinfect hard inanimate surfaces (walls, floors, tabletops) add 16 ml of Formula 333 per liter of water. Apply solution with mop, sponge or sprayer. Wet area and let air dry.

Available in 4-liter, 20 liter and 205-liter container

WEAR GOGGLES OR FACE SHIELD AND RUBBER GLOVES WHEN HANDLING
