

Specifications & Properties

Appearance: Amber
Physical State: Liquid
Viscosity: Slight
Base: Plant Extract
Biodegradability:
98.98%

Description

Heavy Duty Degreaser cleans a wide range of hydrocarbon deposits found on equipment, vehicles, and tanks found in the oil and gas industries. G-Clean® Heavy Duty Degreaser is manufactured from non-toxic, plant-based material to produce a colloidal suspension. When activated by mixing with water, the product forms nano-sized cleaning particles called micelles. These micelles act immediately to penetrate oils and grease.

Features & Benefits

- Exceptional Health & Environmental Safety
- Superior rinsing profile
- Safe on all surfaces

Applications

- Heavy Equipment
- Motors, engines & tools
- Pipeline equipment
- Drilling Equipment

Directions

For general surface cleaning, dilute concentrated product as per instructions. 1 part product diluted up to 100 parts water for general purpose cleaning and, down to 30:1 for heavily soiled situations. Apply enough product to thoroughly wet area, agitate and then rinse clean. Best results are obtained by allowing diluted solution to soak for a least 5-10 minutes to soften the oil deposits. Reapplication may be necessary in heavily contaminated areas. When using a power washer or sprayer, apply diluted product at mid pressure (approximately 100 PSI) and adjust pressure and angle of the hose to achieve optimum results.

Packaging & Handling

Is available in 4L, 20L, 205L containers. Product can be stored in high-density polyethylene, polypropylene or fiberglass containers. Before use be sure to read and follow directions and precautions on product label and safety data sheets (SDS).
