

Graffiti Remover

Specifications & Properties

Flash Point: Not Applicable

Physical State: Clear Liquid

Flammable: NO

Description

Graffiti remover the product is an industrial grade, solvent-based cleaner formulated for the effective removal of typical graffiti markings: spray paint, permanent marker, felt pens, lipstick and crayons. This product contains a blend of solvents, foaming wetting agents and emulsifiers that rapidly penetrate and dissolve graffiti markings, making them easy to wash away. It is a safe, environmentally responsible alternative to the harsh solvents and caustic chemicals typically used to remove graffiti.

Features & Benefits

- Readily biodegradable, non-flammable and non-combustible.
- Has low toxicity and a neutral pH.

Applications

Graffiti remover is ideally applied undiluted. It is semi-viscous to maximize contact time and vertical cling. It can be applied with a sprayer, sponge or roller. Allow 5-10 minutes of contact time without letting the product dry. Use a brush or rag to mechanically scrub the loosened substrate off. Rinse with hot water using a pressure washer if possible.

Directions

CAUTIONS: Graffiti remover may remove paint or coatings other than unwanted graffiti. Always spot test before use. Use only in well ventilated areas.

Packaging & Handling

Graffiti remover is available in 3.8L, 18.9L, 208L & 1000L Containers.
