

#### Specifications & Properties

Flash Point: Not applicable  
Physical State: Clear liquid  
Flammable: NO

#### Description

*All Brite* is an innovative product in acid replacement technology. *All Brite* was developed as an effective user-friendly cleaning alternative to *hydrofluoric acid*. Safe on most metals, this product may be applied in many situations such as aluminum brightening, pre-soak in touch-less carwashes, de-scaling and de-liming, and as an acid presoak.

#### Features & Benefits

- Non-corrosive to skin
- Readily biodegradable
- Phosphate free
- Low odor

#### Applications

- Aluminum tanks
- Truck & trailer
- Stainless Steel & Chrome
- Cooling fins
- Numerous others.....

#### Directions

*All Brite* removes oxidization, road films, water scale, soot and mineral deposits from metal surfaces. *All Brite* can be diluted to suit the application. Suggested dilution range is from 4:1 to 10:1. Simply spray affected area with a sprayer, former or pressure washer, allow product to penetrate and lift deposits. Agitate contaminant if required & **rinse with water**, DO NOT LET PRODUCT DRY ON SURFACE.

#### Packaging & Handling

Available in 4 L, 20L, 208L containers. Product can be stored in high-density polyethylene, polypropylene or fiberglass containers.

Before use be sure to read and follow directions and precautions on product label and material safety data sheets (MSDS).
