

Specifications & Properties

Flash Point: Not applicable
Physical State: clear red liquid
Flammable: NO

Description

W-75 Speed Stripper This product is a highly concentrated water soluble solvent stripper designed for speed stripping of floor finishes. It does not require machine scrubbing or neutralizing before applying floor finish. It can be used with a scrubbing machine and will perform well as a heavy duty stripper in this type of application

Features & Benefits

- does not require machine scrubbing or neutralizing before applying floor finish.

Applications

- Floors

Directions

W-75 Speed Stripper For speed stripping, dilute the product with warm water. For heavy build-up, use at 1:1, for medium build-up, use at 1:2, and for light build-up, use at 1:4. Apply the diluted stripper to the floor with a clean mop. Allow 5 minutes contact time while mopping to provide agitation. Do not allow floor to dry during stripping operation. Pick up the solution thoroughly with a mop or vacuum. Rinse with clean water, and allow area to dry before applying new floor finish. For machine stripping, dilute the product with warm water at a rate of 1 part stripper to 4 parts water. Apply solution to floor with a clean mop. Allow approximately 5 minutes contact time. Do not allow floor to dry. Scrub area with a scrubbing machine, rinse well with clean water. Allow floor to dry before applying new finish..

Packaging & Handling

W-75 Speed Stripper is available in 3.8L, 18.9L. Product can be stored in high-density polyethylene, polypropylene or fiberglass containers. Before use be sure to read and follow directions and precautions on product label and material safety data sheets (SDS).
